

It is an outrageous and dangerous decision by the FCC to not ban Sinclair from forcing its stations to air the anti-Kerry film that clearly has the agenda to politically influence the outcome of the 2004 elections. This is a gross misuse of our public airways for partisan purposes. I consider it a violation of all Americans' free speech rights to have a corporate takeover of our airways for their own politically expedient special interest gains. It is un-American in the extreme! The FCC is supposed to protect the citizens' rights, not pander to special interests of the wealthy and privileged, prompted by lust for power and by greed. Please put a stop to this illegal and unethical activity by the Republican controlled FCC NOW!!!!!!
